Klara

Pracownia Ceramiczna of Klara is a family runned company based in the beautiful City of Kraków in Poland.

The ceramics workshop was established in 1997. All the products are designed and hand formed in the workshop by Klara. The unusual combination of different kinds of clay, glass and metal are their specialty.

The beautifully crafted ceramics hand-made in quirky, contemporary style with a great sense of humor can be seen in many galleries in Europe.
